Stay Alert – Don't Be a Fraud Victim

When it comes to fraud and scams, you can always assume that if something is too good to be true, it probably is. Scammers will always look for vulnerabilities in their victims, so it's important that our members know certain things to look for to avoid future losses. Over the past year, we have sent information to our members about the importance of protecting your personal information and this becomes even more crucial during the busy holiday shopping season. Below is a list to help you identify a fraudster to ensure your information is safe.

1. Never give out personal information to a caller or in a text message. This means your birthdate, social security number, username, password, or details on your account such as your account balance or descriptions of items that have been processed on your account. Cornerstone will NOT ask for this information if we call you. (However, if you call our Call Center, we will need information to identify you.)
2. Do NOT answer unexpected calls that appear to be from Cornerstone Financial Credit Union. The scammers are "spoofing" our number and it looks like the call is from Cornerstone. Allow the call to go to voicemail. We will leave you a message regarding the reason for the call. ONLY call us back at 615-385-6866 during normal business hours. DO NOT call other numbers. Scammers like to call after normal business hours.
3. No one is going to give you money. Scammers tell members that if you give them a small amount of money, they will reward you with a huge sum. There is no such thing as free money. If it seems too good to be true, it probably is!
4. Use digital banking to set alerts on your account. The alert will text you letting you know a transaction has occurred on your account, the amount, and the type of transaction. DO this today! If you need help setting alerts, go to your local branch.
5. Protect your account information. If you have workers in your home, keep all account information in a safe place and out of sight.
6. If a situation seems odd, it probably is a scam. HANG the phone up! Block persistent callers.
7. Scammers are smart and play on your emotions. If the call is long and they keep asking for information, hang up.

Always remember that if you are ever in doubt of any request, simply call us at 615-385-6866 and we can help you identify if your situation is legitimate.
